

# Our Business Operations

Diesel Equipment

## Industrea Mining Equipment – established 1978

- Heavy underground mining equipment, specifically targeting long wall relocation
- Specialist flame and explosion proof underground mining vehicles
- Design, manufacture, maintenance, spares, service and support

## Kade Engineering – established 1993

- Production and fabrication of specialist underground mining vehicles

## P.J. Berriman – established 1977

- Specialist flame and explosion proof underground mining vehicles
- Materials handling equipment and accessories
- Design, manufacture, maintenance, spares, service and support

Mining Services

## Huddy's Mining Services – established 1986

- Integrated contract mining services including:
  - mine planning and management
  - open cut mining and earth moving services
  - earthmoving equipment and experienced operating staff
  - drill and blast contracting services
  - civil works

“The latest contract with China’s Jincheng Group is indicative of IDL’s ongoing ability to win good margin work in its high-end coal safety related businesses” - **Ord Minnett**

Technology

**Advanced Mining Technologies – established 1993**

- Underground methane gas drainage and directional drill guidance systems
- Open cut mining collision avoidance systems

**GPS Online Solutions – established 1987**

- Design and implementation of asset location and driver performance monitoring systems for the mining and transport industries
- Safety driver rating index, man down and GPS based tracking equipment for open cut mines

**Microelectronic Technologies – established 1992**

- Specialist contract electronics design

International

**Wadam Industries – established 1992**

- Industrea Wadam (Beijing) Mining Equipment Technical Services Co Ltd (Industrea Wadam) – established 2009
- Distribution, sales, service, spares and support of Industrea and third party “best of breed” underground mining equipment into China

**Industrea Wadam (Beijing) Mining Equipment Technical Services Co Ltd (Industrea Wadam) – established 2009**

- Manufacture, maintenance, spares, service and support of specialist mining products in China, South America and South Africa

**Advanced Mining Technologies Chile – established 2009**

- Distribution, sales and service throughout Latin America
